

- 4) Both parties agree that the students and EI staff (including instructors) are not employees of the HCA for the duration of their practice education placement.
- 5) The HCA will provide necessary orientation materials to ensure students and EI staff are familiar with the HCA's policies and procedures prior to engaging in activities at the HCA facility. In turn, the EI will assume responsibility for the adherence by students and EI staff to the rules, policies, and regulations of the HCA.
- 6) The HCA's obligations under the agreement will be subject to the availability of resources, its operational and administrative needs and ensuring the safety and care of its patients. It is important the HCA maintain normal staffing levels to carry out patient care duties regardless of the presence of students or EI staff.
- 7) The EI will arrange workers' compensation or equivalent coverage for students and EI staff while engaged in activities at the HCA. This will ensure there is coverage available for any injuries sustained by students or EI staff while on the HCA premises. Under the *Worker's Compensation Act* of BC, workers are prohibited from suing any employer. If the student or EI staff does not have coverage through WorkSafe BC or an equivalent workers compensation insurer, the EI will be required to confirm the student or EI staff has secured their own medical and/or accident insurance for the duration of the placement at the HCA and will forward a signed waiver/release of responsibility form to the HCA prior to the start of the practice education.
- 8) The agreement should also specify the insurance requirements for each of the parties participating in the agreement. Proof of insurance coverage should be available upon request. There are some important insurance considerations when an HCA accepts a student or instructor from an out-of-province or international EI. Please refer to the risk note: **Managing Additional Risk in Educational Institution Affiliation Agreements with Post-Secondary Institutions Outside BC.**
- 9) The agreement should include hold harmless and indemnification clauses granted by both parties. These clauses transfer the responsibility for payment of costs and damages arising from legal liability from one party to the other.
- 10) The agreement should specify how any disputes between the parties are to be settled. Dispute resolution terms help to resolve conflicts in cases where conflicts arise and there is an expectation that the student practice education will continue for a long period of time.
- 11) Both parties have the authority to suspend or terminate a practice education experience in accordance with the *Practice Education Guideline: Student Practice Issues*.
- 12) The agreement may be terminated giving no more than 90 days notice in writing; the short period of notice will help to protect the HCA should conflict arise regarding the terms of the agreement.
- 13) The HCA can terminate the agreement without notice should the implementation of the agreement adversely affect the standard of patient care or student education.
